TCIP V_2.4

TCIP V2.4

Draft Transit Communications Interface Profiles

Version 2.4

DRAFT

Acknowledgment

This document was drafted by APTA's TCIP Project Team. The authors would like to acknowledge the accomplishments and contributions of the TCIP I Technical Working Group and Subgroups which developed the NTCIP 1400-1408 Standards. This draft standard is built on the hard work, dedication, and products of that team. Without their efforts, this document would not have been possible.

DRAFT

This document was developed by APTA and two principal subcontractors ARINC Inc, and Critical Link, LLC under contract to the Federal Transit Administration. The APTA TCIP Executive Review Committee is chaired by John Bartosiewicz Executive Vice President/COO of McDonald Transit Associates, Inc., formerly the General Manager of Forth Worth Transit. Inquiries regarding this document should be directed to Louis Sanders of APTA (202) 496-4886.

Contents

Version 2.4..... 1

1. Overview 1

2. Definitions 2

3. Conformance..... 7

4. Understanding TCIP 8

5. Concept of Operations 9

 5.1 General Concepts..... 9

 5.2 Common Public Transportation..... 10

 5.2.1 Stop Points Distribution..... 10

 5.2.2 Vehicle Inventory Distribution 10

 5.2.3 Transit Facilities Information 10

 5.3 Incident Management 11

 5.3.1 Silent Alarm..... 11

 5.3.2 Initial Incident Reporting..... 11

 5.3.3 Incident Status Updates 11

 5.3.4 Distribution of Incident Information..... 11

 5.4 Passenger Information 11

 5.4.1 Locating Transit Service..... 12

 5.4.2 Determining the Status of Transit Service 12

 5.4.2.1 Status of Service 12

 5.4.2.2 Service Bulletins..... 12

 5.4.3 Parking Availability..... 12

 5.4.4 Transit Itineraries and Maps 12

 5.4.5 Text Timetables 13

 5.4.6 Passenger Information Displays (PID) 13

 5.4.6.1 PID Capability Groups..... 14

 5.4.6.2 Schedule Capabilities..... 14

5.4.6.3 PID Text Capabilities..... 15

5.4.6.4 PID Audio Capabilities..... 15

5.4.6.5 PID Graphics Capabilities..... 15

5.4.6.6 PID Animation Capabilities..... 15

5.4.6.7 PID Video..... 15

5.4.6.8 PID Logging..... 16

5.4.6.9 PID Health..... 16

5.4.7 Printed Mailings..... 16

5.4.8 Locating Landmarks..... 16

5.5 Scheduling/Runcutting..... 16

5.5.1 Scheduling Processes..... 16

5.5.1.1 Schedule Writing..... 16

5.5.1.2 Block Building..... 18

5.5.1.3 Run-Cutting..... 18

5.5.1.4 Going into Production..... 18

5.5.2 Agency Architectures for Scheduling..... 18

5.5.3 Scheduling Dialogs..... 19

5.5.3.1 Determine Schedule Artifact Version Numbers..... 19

5.5.3.2 Distribution of Schedule Artifacts..... 20

5.5.3.3 Distribution of Vehicle and Operator Assignments..... 20

5.5.3.4 Distribution of Schedule Information Organized for Special Purposes..... 20

5.5.4 Distribution of Operator and Vehicle Assignments (commentary)..... 21

5.5.4.1 Operator Assignment Distribution..... 21

5.5.4.1.1 Creation of Schedule and Operator Assignments (Evolution #1)..... 21

5.5.4.1.2 Operator Pick (Evolution # 2)..... 21

5.5.4.1.3 Modify Tomorrows Assignments (Evolution # 3)..... 22

5.5.4.1.4 Load CAD/AVL System (Evolution # 4)..... 22

5.5.4.1.5 Load Vehicles (Evolution # 5)..... 22

5.5.4.1.6 Late Changes (Evolution # 6) 22

5.5.4.1.7 Late Changes to Vehicles (Evolution # 7) 22

5.5.4.2 Vehicle Assignment Distribution..... 22

5.5.4.2.1 Creation of Schedule and Vehicle Assignments (Evolution #1)..... 23

5.5.4.2.2 Binding Vehicles to Blocks (Evolution #2)..... 23

5.5.4.2.3 Load CAD/AVL System (Evolution #3) 23

5.5.4.2.4 Load Vehicles (Evolution #4)..... 24

5.5.5.2.5 Late Changes (Evolution #5) 24

5.5.4.2.6 Late Changes to Vehicles (Evolution #6) 24

5.6 Spatial Representation 24

5.7 On board Vehicles 24

5.7.1 Onboard Distribution of Vehicle Location 24

5.7.2 Determination of Wireless LAN Availability 24

5.7.3 Common Mobile Data Terminal for Onboard Applications 24

5.8 Control Center 25

5.8.1 Provide Configuration Information to Transit Vehicles 25

5.8.2 Provide Daily Operating Information to Transit Vehicles..... 26

5.8.3 Obtain Operating Status Information from Transit Vehicles..... 26

5.8.4 Facilitate Vehicle-Dispatch Communications..... 27

5.9 Fare Collection..... 27

5.9.1 Upload Fare Related Operating Data 27

5.9.2 Download Fare Related History Data 27

5.9.3 Report Onboard Fare Equipment Health Events..... 28

5.9.4 Report Passenger Count to Onboard Systems..... 28

5.9.5 Other Dialogs..... 28

5.10 Signal Control and Prioritization 28

5.10.1 Transit Management/Traffic Management SCP Planning 30

5.10.1.1 Coordination of NTCIP 1211 Scenarios 31

DRAFT

5.10.1.2	Coordination of SCP Strategies	31
5.10.1.3	Example of SCP Strategy Coordination.....	31
5.10.2	TCIP Signal Control & Prioritization (SCP) Dialogs	33
5.10.2.1	SCP Scenario 1 Dialogs.....	33
5.10.2.2	SCP Scenario 2 Dialogs.....	33
5.10.2.3	SCP Scenario 3 Dialogs.....	33
5.10.2.4	SCP Scenario 4 Dialogs.....	34
5.10.3	SCP Operational Examples.....	34
5.10.3.1	Vehicle Based PRG Scenario.....	35
5.10.3.2	Control Center-Based Priority Request Generator.....	37
5.10.3.3	Traffic Management Center (TMC)-Based Priority Request Generator.....	38
5.10.1.4	Coordination of Vehicle Classes.....	40
5.10.1.5	Coordination or Priority Clear	40
6.	TCIP Dialogs	40
6.1	Patterns	40
6.2	Dialog Instantiations	41
6.3	TCIP Batch	41
7.	TCIP Dialog Patterns	41
7.1	Subscription Pattern.....	41
7.2	Command-Response Pattern.....	46
7.3	Report Pattern	48
7.4	Silent Alarm Pattern.....	49
7.5	Upload Pattern	51
7.6	Download Pattern	55
7.7.1	Operators Initiated Voice Radio Call Pattern	57
7.7.2	Dispatcher Initiated Voice Radio Call Pattern.....	60
7.8	Signal Control & Prioritization Dialog Pattern.....	62
8.	TCIP Data.....	64

8.1 Data Elements	66
8.1.1 ASN.1 Data Types	66
8.1.2 TCIP Subtypes of ASN.1 Data Types.....	67
8.1.2.1 Subtype Definitions	67
8.1.3 TCIP Data Element Definition.....	70
8.2 TCIP Data Frames	71
8.3 TCIP Messages	72
8.4 TCIP Messaging Over Narrowband Radio Links.....	73
8.4.1 TCIP Fixed-Mobile/Field Communications	73
8.4.1.1 Bulk Transfer Communications.....	73
8.4.1.2 Narrow Band Radio Communications	74
8.4.1.2.1 Narrowband TCIP Message Order of Octet and Bit Transmission.....	74
8.4.1.2.2 Narrowband TCIP Message Encoding Restrictions.....	74
9. TCIP Usage in RFPs.....	85
9.1 Example Agency Architecture Excerpt	86
9.2 Creating an RFP.....	87
Annex A Normative	89
Data Elements	89
A.1 Common Public Transportation Data Elements	90
A.2 Incident Management Data Elements	224
A.3 Passenger Information Data Elements	321
A.4 Scheduling/Runcutting Data Elements	426
A.5 Spatial Representation Data Elements	495
A.6 On Board Data Elements	545
A.7 Control Center Data Elements	858
A.8 Fare Collection Data Elements	905
