## FOREWORD

This document uses only metric units.

This document is an NTCIP Information Data Dictionary Standard. Information Data Dictionaries Standards formally express management information in terms of objects (data elements, data frames, and messages) for use within TCIP and NTCIP systems.

The TCIP family of standards addresses Advanced Public Transportation Systems (APTS) data interfaces and related automated transit tools and data. The standards address the business requirements of these APTS data interfaces. In some cases, specialized terms were needed to define general classes of information. For example, different business areas needed to define data elements related to time, date and footnotes. Special, constrained data types were developed so that the transit domain data concepts were consistent across business areas, while specific needs were met. These data types are defined within the TCIP family of standards and in this document.

For more information about NTCIP standards, visit the NTCIP Web Site at <http://www.ntcip.org>. For a hardcopy summary of NTCIP information, contact the NTCIP Coordinator at the address below.

In preparation of this NTCIP document, input of users and other interested parties was sought and evaluated. Inquires, comments, and proposed or recommended revisions should be submitted to:

NTCIP Coordinator  
National Electrical Manufacturers Association  
1300 North 17th Street, Suite 1847  
Rosslyn, Virginia 22209-3801  
fax: (703) 841-3331  
e-mail: [ntcip@nema.org](mailto:ntcip@nema.org)

### Approvals

This document will be separately balloted and approved by AASHTO, ITE, and NEMA after recommendation by the Joint Committee on the NTCIP. Each organization is expected to approve this NTCIP Information Data Dictionary Standard as the following standard type, as of the date:

AASHTO – Standard Specification; Month YYYY  
ITE – Software Standard; Month YYYY  
NEMA – Standard; Month YYYY

### History

From 1998 to 1999, this document was referenced as ITE ST-ITS-TCIP-FC and/or NEMA TS 3.TCIP-FC. However, to provide an organized numbering scheme for the NTCIP, this document is now referenced as NTCIP 1408. The technical specification of NTCIP 1408 is identical to the former reference, except as noted in the development history:

ST-ITS-TCIP-FC version 01.0, March 1999. April 1999-Standards Development Report Attachment A listed changes from draft v0.4 to v1.0. May 1999 – User Comment Draft accepted by the Joint Committee on the NTCIP. June 1999 – NTCIP Standards Bulletin B0037 requested user comments on NTCIP 1408.

NTCIP 1408 version 01.00, March 1999. November 1999 – Recommended Standard accepted by the Joint Committee on the NTCIP. February 2000 – No additional changes reported to

v01.00. May 2000 –NTCIP Standards Bulletin B0053 requested ballot to approve. Approved by AASHTO in December 2000, approved by ITE in May 2001, and approved by NEMA in May 2001.

NTCIP 1408 v01.01, December 31, 2001. October 2001 – Reformatted for printing: incremented version number and updated date; added and revised front matter; updated references to NTCIP and NEMA document numbers in Clause on References; updated references to ITE document numbers; inserted introduction text in Section on Requirements; deleted Annex A Comment Form; and inserted introduction text in Annex for the ASN.1 Script.

Draft NTCIP 1408 v01.02 Amendment 1, August 2002. Updated references and corrected typographic errors.

**DISTRIBUTION NOTICE**

To the extent and in the limited event these materials are distributed by AASHTO/ITE/NEMA in the form of a Data Dictionary and ASN.1 Script (“DD”), AASHTO / ITE / NEMA extends the following permissions:

- (i) you may make and/or distribute unlimited copies (including derivative works) of a Data Dictionary (DD), including copies for commercial distribution, provided that (a) each copy you make and/or distribute contains this Notice;
- (ii) use of the DD is restricted in that the syntax field may be modified only to reflect a more restrictive subrange or enumerated values;
- (iii) the description field may be modified but only to the extent that: (a) only those bit values or enumerated values that are supported are listed; and (b) the more restrictive subrange is expressed.

These materials are delivered “AS IS” without any warranties as to their use or performance.

AASHTO / ITE / NEMA AND THEIR SUPPLIERS DO NOT WARRANT THE PERFORMANCE OR RESULTS YOU MAY OBTAIN BY USING THESE MATERIALS. AASHTO/ITE/NEMA AND THEIR SUPPLIERS MAKE NO WARRANTIES, EXPRESS OR IMPLIED, AS TO NONINFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY, OR FITNESS FOR ANY PARTICULAR PURPOSE. IN NO EVENT WILL AASHTO, ITE, OR NEMA OR THEIR SUPPLIERS BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY CLAIM OR FOR ANY CONSEQUENTIAL, INCIDENTAL, OR SPECIAL DAMAGES, INCLUDING ANY LOST PROFITS OR LOST SAVINGS, ARISING FROM YOUR REPRODUCTION OR USE OF THESE MATERIALS, EVEN IF AN AASHTO, ITE, OR NEMA REPRESENTATIVE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some states or jurisdictions do not allow the exclusion or limitation of incidental, consequential, or special damages, or the exclusion of implied warranties, so the above limitations may not apply to you.

Use of these materials does not constitute an endorsement or affiliation by or between AASHTO, ITE, or NEMA and you, your company, or your products and services.

**Disclaimer**

The information in this publication was considered technically sound by the consensus of persons engaged in the development and approval of the document at the time it was developed. Consensus does not necessarily mean that there is unanimous agreement among every person participating in the development of this document.

AASHTO, ITE, and NEMA standards and guideline publications, of which the document contained herein is one, are developed through a voluntary consensus standards development process. This process brings together volunteers and/or seeks out the views of persons who have an interest in the topic covered by this publication. While AASHTO, ITE, and NEMA administer the process and establish rules to promote fairness in the development of consensus, they do not write the document and they do not independently test, evaluate, or verify the accuracy or completeness of any information or the soundness of any judgments contained in their standards and guideline publications.

AASHTO, ITE, and NEMA disclaim liability for any personal injury, property, or other damages of any nature whatsoever, whether special, indirect, consequential, or compensatory, directly or indirectly resulting from the publication, use of, application, or reliance on this document. AASHTO, ITE, and NEMA disclaim and make no guaranty or warranty, express or implied, as to the accuracy or completeness of any information published herein, and disclaims and makes no warranty that the information in this document will fulfill any of your particular purposes or needs. AASHTO, ITE, and NEMA do not undertake to guarantee the performance of any individual manufacturer or seller's products or services by virtue of this standard or guide.

In publishing and making this document available, AASHTO, ITE, and NEMA are not undertaking to render professional or other services for or on behalf of any person or entity, nor are AASHTO, ITE, and NEMA undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances. Information and other standards on the topic covered by this publication may be available from other sources, which the user may wish to consult for additional views or information not covered by this publication.

AASHTO, ITE, and NEMA have no power, nor do they undertake to police or enforce compliance with the contents of this document. AASHTO, ITE, and NEMA do not certify, test, or inspect products, designs, or installations for safety or health purposes. Any certification or other statement of compliance with any health or safety-related information in this document shall not be attributable to AASHTO, ITE, or NEMA and is solely the responsibility of the certifier or maker of the statement.

-- *Updated the publications information for Normative References*

draft NTCIP 1400:2002 Amendment 1, *Transit Communications Interface Profile Framework*, version 1.05 Amendment 1.

draft NTCIP 1401:2002 Amendment 1, *Transit Communications Interface Profile, Standard on Common Public Transportation Objects*, version 1.03 Amendment 1, August, 2002.

draft NTCIP 1404:2002 Amendment 1, *Transit Communications Interface Profile, Standard on Scheduling and Runcutting Objects*, version 1.03 Amendment 1, August, 2002.

ISO/IEC 8824:1998, *Abstract Syntax Notation One (ASN.1)*

### **1.2.2 Informative References**

-- *Updated the publications information for Informative References*

IEEE Std 1489-1999, *IEEE Standard for Data Dictionaries for Intelligent Transportation Systems*. 27 October 1999.

IEEE Std 1488-2000, *IEEE Trial-Use Standard for Message Set Template for Intelligent Transportation Systems*. 13 July 2000.

**Section 2**  
**TERMINOLOGY**

*-- no changes*

**Section 3**  
**CONCEPT OF OPERATIONS**

*-- Modified section name to Concept of Operations*

## Section 4 REQUIREMENTS

### 4.1 FARE COLLECTION DATA DICTIONARY

#### **FC\_AccountID\_id**

(1) *The Representative class term (in descriptive name and field) was modified to identifier (id).*

<b>Descriptive Name</b>	FC_AccountID_id
<b>Representation class term</b>	identifier

#### **FC\_BadCardID\_id**

(1) *The Representative class term (in descriptive name and field) was modified to identifier (id).*

<b>Descriptive Name</b>	FC_BadCardID_id
<b>Representation class term</b>	identifier

#### **FC\_ComponentErrorType\_cd**

(1) *Removed error codes from code list.*

#### **Representation layout**

```
FC-ComponentErrorType ::= INTEGER {  
bill-accept (1), -- bill accept  
bill-count (2), -- bill count  
bill-escrow (3), -- bill escrow  
bill-operation (4), -- bill operation  
bill-stacker (5), -- bill stacker  
card-read-1 (6), -- card read (1st try)  
card-read-2 (7), -- card read (2nd try)  
card-read-3 (8), -- card read (3rd try)  
card-reject (9), -- card reject  
card-write (10), -- card write  
coin-accept (11), -- coin accept  
coin-count (12), -- coin count  
coin-operation (13), -- coin operation  
power-loss (14), -- power loss  
feed (15), -- feed  
transport (16), -- transport  
printer (17) -- printer  
-- 18-149 reserved  
-- 150-255 local use  
} (0..255)
```

#### **Valid value rule**

```
1- bill accept  
2- bill count  
3- bill escrow  
4- bill operation  
5- bill stacker  
6- card read (1st try)
```

- 7- card read (2nd try)
- 8- card read (3rd try)
- 9- card reject
- 10- card write
- 11- coin accept
- 12- coin count
- 13- coin operation
- 14- power loss
- 15- feed
- 16- transport
- 17- printer
- 18-149 reserved
- 150-255 local use

codes 150-246 shall be associated with fcEquipmentErrorTypeDescription

### **FC\_ComponentErrorTypeID\_id**

(1) *The Representative class term (in descriptive name and field) was modified to identifier (id).*

**Descriptive Name** FC\_ComponentErrorTypeID\_id  
**Representation class term** identifier

### **FC\_ComponentEventID\_id**

(1) *The Representative class term (in descriptive name and field) was modified to identifier (id).*

**Descriptive Name** FC\_ComponentEventID\_id  
**Representation class term** identifier

### **FC\_ComponentEventType\_cd**

(1) *The error codes were removed from the code list.*

**Representation layout** FC-ComponentEventType ::= INTEGER {  
voltage-dropout (1), -- voltage dropout  
voltage-restored (2), -- voltage restored  
probe-started (3), -- probe started  
probe-completed (4), -- probe completed  
cashbox-removed (5), -- cashbox removed  
cashbox-restored (6), -- cashbox restored  
cashbox-door-timeout (7), -- cashbox door timeout  
cashbox-opened-is (8), -- cashbox opened in service  
insufficient-fare (9), -- insufficient fare accepted  
coinbox-75-full (10), -- coinbox 75% full  
coinbox-full (11), -- coinbox full  
currencybox-75-full (12), -- currency box 75% full  
currencybox-under-75 (13), -- currency box less than 75% full  
currencybox-full (14), -- currency box full  
cardpassbox-75-full (15), -- card/pass box 75% full  
cardpassbox-under-75 (16), -- card/pass box less than 75% full  
cardpassbox-full (17), -- card/pass box full  
coin-dejam (18), -- coin de-jam operated  
farebox-manual-bypass (19), -- farebox set in manual bypass  
farebox-automatic (20), -- farebox reset to automatic mode  
pass-jam (21), -- pass/transfer jam  
pass-jam-cleared (22), -- pass/transfer jam cleared  
pass-currency-jam (23), -- pass currency jam  
maintenance-access-is (24), -- maintenance access - in service  
maintenance-access-oos (25), --maintenance access - out of service

alarm-module-failure (26), -- alarm module failure  
battery-failure (27), -- battery failure  
battery-low (28), -- battery low  
cardcapturebin-75-full (29), -- card capture bin 75% full  
cardcapturebin-full (30), ---card capture bin full  
card-stock-1-low (31), -- Fare card stock type 1 is low  
card-stock-1-out (32), -- Fare card stock type 1 is out  
card-stock-2-low (33), -- Fare card stock type 2 is low  
card-stock-2-out (34), -- Fare card stock type 2 is out  
card-stock-3-low (35), -- Fare card stock type 3 is low  
card-stock-3-out (36), -- Fare card stock type 3 is out  
card-stock-4-low (37), -- Fare card stock type 4 is low  
card-stock-4-out (38), -- Fare card stock type 4 is out  
card-stock-5-low (39), -- Fare card stock type 5 is low  
card-stock-5-out (40), -- Fare card stock type 5 is out  
card-stock-6-low (41), -- Fare card stock type 6 is low  
card-stock-6-out (42), -- Fare card stock type 6 is out  
clock-error (43), -- Equipment controller board clock error  
coin-acceptor-fault (44), -- Coin acceptor fault  
communications-loss (45), -- Loss of communications with local devices  
maintenance-door-open (46), -- Maintenance door open  
maintenance-door-closed (47), -- Maintenance door closed  
motion-sensor-alarm-on (48), -- Motion sensor alarm triggered  
power-reset (49), -- Power reset  
communications-lost (50), -- Local station communications lost  
receipt-low (51), -- Receipt low  
receipt-out (52), -- Receipt out  
credit-debit-failure (53), -- credit/debit failure (out of service)  
gate-failure (54), -- gate failure (turnstile and parking)  
banknote-validation-failure (55) -- bank note validation failure  
-- 56 - 65399 reserved  
-- 65400 - 65535 local use  
} (0..65535)

**Valid value rule**

1- voltage dropout  
2- voltage restored  
3- probe started  
4- probe completed  
5- cashbox removed  
6- cashbox restored  
7- cashbox door timeout  
8- cashbox opened in service  
9- insufficient fare accepted  
10- coin box 75% full  
11- coin box full  
12- currency box 75% full  
13- currency box less than 75% full  
14- currency box full  
15- card/pass box 75% full  
16- card/pass box less than 75% full  
17- card/pass box full  
18- coin de-jam operated

**FC\_TimePeriodIndex\_id**

*(1) The Representative class term (in descriptive name and field) was modified to identifier (id).*

**Descriptive Name** FC\_TimePeriodIndex\_id  
**Representation class term** identifier

**FC\_TimePeriodTableID\_id**

*(1) The Representative class term (in descriptive name and field) was modified to identifier (id).*

**Descriptive Name** FC\_TimePeriodTableID\_id  
**Representation class term** identifier

**FC\_TransactionResult\_cd**

*(1) The error codes were removed from the code list.*

**Representation layout**

```
FC-TransactionResult ::= INTEGER {  
comment (0), -- comment  
successful-transaction (1), -- successful transaction  
-- 2-9 reserved  
read-error (10), -- read error  
-- 11-19 reserved  
write-error (20), -- write error  
-- 21-29 reserved  
verify-error (30), -- verify error  
-- 31-39 reserved  
validation-status-error (40), -- validation status error  
-- 41-49 reserved  
status-error (50), -- status error  
-- 51-59 reserved  
other (60) -- other  
-- 61-255 reserved  
} (0..255)
```

**Valid value rule**

- 0 -- comment
- 1-- successful transaction
- 2--9 reserved
- 10-- read error
- 11-19 reserved
- 20-- write error
- 21-29 reserved
- 30-- verify error
- 31-39 reserved
- 40-- validation status error
- 41-49 reserved

50- status error  
51-59 reserved  
60- other  
61-255 reserved
